Cybersecurity Internship Certificate

This is to certify that

Jitender

has successfully completed a self-directed internship in

Cybersecurity Project Development, titled:

"Mini Threat Detector - Python CLI Tool for File Integrity and Phishing Detection"

during the months of June?July 2025.

The project involved practical application of Python, hashing algorithms,

regex, CLI development, and GitHub version control.

This project demonstrates strong self-initiative, problem-solving ability,

and a commitment to learning modern cybersecurity practices.

Date of Completion: June 13, 2025
